# SAFETY DATA SHEET

## G-POLY 85 PART B

### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

| COMPONENTS                         | CAS NUMBER | % BY WEIGHT |
|------------------------------------|------------|-------------|
| Aspartic Ester                     | TD         | 70-100      |
| Trimethylpentanediol Diisobutyrate | 6846-50-0  | 2-10        |

NOTE: This product may contain additional ingredients that are classified as non-hazards or at a very small concentration that do not meet the regulatory concentration limits for disclosure.

### SECTION 4: FIRST AID MEASURES

|                      |                                                                                                                                                                                                                                                                   |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| EYES:                | Immediate and continuous irrigation with flowing water for at least 30 minutes is required. Promptly seek medical attention.                                                                                                                                      |
| SKIN:                | Immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing, preferably under a safety shower. Seek medical attention immediately. Avoid prolonged or repeated contact to skin. Wash thoroughly after handling.      |
| INGESTION:           | Do not induce vomiting. Give large amounts of water or milk if available and transport to medical facility.                                                                                                                                                       |
| INHALATION:          | Remove to fresh air if effect occurs. Consult medical personnel.                                                                                                                                                                                                  |
| NOTES TO PHYSICIANS: | Corrosive. May cause stricture. lavage is performed, suggest endotracheal and/or esophagosopic control. If burn is present, treat as any thermal burn, after decontamination. No specific antidote. Supportive care. Treatment based on judgment of the physician |

### SECTION 5: FIRE-FIGHTING MEASURES

|                                                          |                                                                                                                                                                                                                                                                        |
|----------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| EXTINGUISHING MEDIA:                                     | Foam, Powders, Carbon dioxide                                                                                                                                                                                                                                          |
| SPECIFIC HAZARDS ARISING FROM THE SUBSTANCES OF MIXTURE: | Incomplete combustion may form carbon monoxide.<br>May generate ammonia gas. May generate toxic nitrogen oxide gases.<br>Burning produces noxious and toxic fumes. Downwind personnel must be evacuated.                                                               |
| SPECIAL PROTECTIVE EQUIPMENT FOR FIREFIGHTERS:           | Use personal protective equipment.                                                                                                                                                                                                                                     |
| FURTHER INFORMATION:                                     | Wear self-contained breathing apparatus for firefighting if necessary.<br>Do not allow run-off from firefighting to enter drains or water courses.<br>Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations |

### SECTION 6: ACCIDENTAL RELEASE MEASURES

|                                                                     |                                                                                                                                                                                                                                                                                                                                                   |
|---------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT, AND EMERGENCY PRODUCERS | Wear suitable protective clothing, gloves, and eye/face protection.<br>Avoid breathing vapors/mist/gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas. For personal protection see section 8. |
| ENVIRONMENTAL PRECAUTIONS                                           | Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.                                                                                                                                                                                                            |
| METHODS AND MATERIALS FOR CONTAINMENT AND CLEANING-UP               | Soak up with inert absorbent material and dispose of as hazardous waste. Keep in suitable, closed containers for disposal.                                                                                                                                                                                                                        |
| ADDITIONAL ADVICE                                                   | For disposal see section 13.                                                                                                                                                                                                                                                                                                                      |

# SAFETY DATA SHEET

## G-POLY SC PART B

### SECTION 7: HANDLING AND STORAGE

|                                |                                                                                                                                                                                                                                                       |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| PRECAUTIONS FOR SAFE HANDLING: | Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Put on appropriate personal protective equipment before handling. Keep away from sources of ignition - No smoking. Take measures to prevent the buildup of electrostatic charge. |
| CONDITIONS FOR SAFE STORAGE:   | Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.                                                                    |
| HYGIENE PRACTICE:              | Eating, drinking and smoking should be prohibited in areas where this material is handled. Wash hands thoroughly after handling.                                                                                                                      |

### SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

|                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|---------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| CONTROL PARAMETERS              | Hexamethylene – di-isocyanate (CAS: 822-06-0)<br>Threshold Limit Value: ACGIH 0.005ppm<br>National Institute for Occupational Safety and Health                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| ENGINEER CONTROLS:              | Use process enclosures, local exhaust ventilation, or other engineering controls to keep worker exposure to air-borne contaminants below recommended exposure limits. Wear appropriate personal protective equipment where such systems are not effective to perform satisfactorily and meets OSHA or other recognized standards. Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.                                                                                                                                                                                                     |
| PERSONAL PROTECTION EQUIPMENT   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| EYE/FACE PROTECTION:            | Tightly fitted safety goggles. Face shield (8-inch minimum). Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| SKIN PROTECTION:                | Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands after handling or before eating, drinking, or smoking.                                                                                                                                                                                                                                                                                             |
| BODY PROTECTION                 | If used in solution, or mixed with other substances, and under conditions which differ from EN 374, contact the supplier of the CE approved gloves. This recommendation is advisory only and must be evaluated by an industrial hygienist and safety officer familiar with the specific situation of anticipated use by our customers. It should not be construed as offering an approval for any specific use scenario. Impervious clothing. Closed-toe shoe. Flame retardant antistatic protective clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. |
| RESPIRATORY PROTECTION:         | Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).                                                                                                                                                                                                                     |
| ENVIRONMENTAL EXPOSURE CONTROLS | Prevent further leakage or spillage if safe to do so.<br>Do not allow product enter into sewers or waterways.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

### SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

|                   |                   |                                 |                   |                                        |                            |
|-------------------|-------------------|---------------------------------|-------------------|----------------------------------------|----------------------------|
| PHYSICAL STATE:   | Viscous liquid    | MELTING POINT / FREEZING POINT: | No data available | UPPER/LOWER FLAMMABILITY LIMIT:        | No data available          |
| ODOR:             | Solvent           | BOILING POINT/ RANGE:           | No data available | RELATIVE DENSITY:                      | 1.175 g/cm3 at 77°F (25°C) |
| ODOR THRESHOLD:   | No data available | FLASH POINT:                    | No data available | PARTITION COEFFICIENT: N-OCTANOL/WATER | No data available          |
| COLOR:            | Clear             | EVAPORATION RATE:               | No data available | AUTO-IGNITION TEMPERATURE:             | No data available          |
| PH:               | No data available | VOC:                            | 0 g/L             | DECOMPOSITION TEMPERATURE:             | No data available          |
| VAPOR PRESSURE:   | No data available | FLAMMABILITY (SOLID/GAS):       | No data available | VISCOSITY:                             | 50-150 CPS at 77°F (25°C)  |
| VAPOR DENSITY:    | No data available | EXPLOSIVE PROPERTIES:           | No data available | OXIDIZING PROPERTIES:                  | No data available          |
| WATER SOLUBILITY: | <0.1 g/L          |                                 |                   |                                        |                            |

# SAFETY DATA SHEET

## G-POLY SC PART B

### SECTION 10: STABILITY AND REACTIVITY

|                                   |                                                                                                                                                                                                                                                                                                                                                                            |
|-----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| CONTROL PARAMETERS                | No data available                                                                                                                                                                                                                                                                                                                                                          |
| CHEMICAL STABILITY                | Stable under recommended storage conditions                                                                                                                                                                                                                                                                                                                                |
| POSSIBILITY OF HAZARDOUS REACTION | No data available                                                                                                                                                                                                                                                                                                                                                          |
| CONDITIONS TO AVOID               | Heat, flames, sparks, and oxidizing agents                                                                                                                                                                                                                                                                                                                                 |
| SKIN PROTECTION:                  | Reactive metals (Sodium, Calcium, Zinc, etc.) Materials reactive with hydroxyl compounds Organic acids (acetic acid, citric acid, etc.) Mineral acids Sodium hypochlorite Product slowly corrodes copper, aluminum, zinc, and galvanized surfaces. Reaction with peroxides may result in violent decomposition of peroxide possibly creating an explosion Oxidizing agents |
| HAZARDOUS DECOMPOSITION PRODUCTS  | Nitric acid Ammonia Nitrogen oxides (NOx) Nitrogen oxide can react with water vapors to form corrosive nitric acid Carbon monoxide Carbon dioxide (CO2) Aldehydes Flammable hydrocarbon fragments<br>In the event of fire: see section 5                                                                                                                                   |

### SECTION 11: TOXICOLOGICAL INFORMATION

|                                                                   |                                                                                                                           |
|-------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------|
| INFORMATION ON THE LIKELY ROUTES OF EXPOSURE                      |                                                                                                                           |
| EYE CONTACT:                                                      | Cause eye irritation                                                                                                      |
| SKIN CONTACT:                                                     | Cause skin irritation                                                                                                     |
| INHALATION:                                                       | No data available                                                                                                         |
| INGESTION:                                                        | No data available                                                                                                         |
| SYMPTOMS RELATED TO PHYSICAL, CHEMICAL, AND TOXICOLOGICAL EFFECTS |                                                                                                                           |
| EYE CONTACT:                                                      | Cause eye irritation                                                                                                      |
| SKIN CONTACT:                                                     | Cause skin irritation                                                                                                     |
| INHALATION:                                                       | Stomachache, nausea, vomiting                                                                                             |
| INGESTION:                                                        | Dullness, vision disorder, blindness                                                                                      |
| CHRONIC TOXICITY / EFFECTS FROM LONG TERM EXPOSURE                |                                                                                                                           |
| SENSITIZATION:                                                    | Skin sensitizer                                                                                                           |
| GERM CELL MUTAGENICITY:                                           | No data available                                                                                                         |
| CARCINOGENICITY:                                                  | No data available                                                                                                         |
| REPRODUCTIVE TOXICITY:                                            | No data available                                                                                                         |
| SPECIFIC TARGET ORGAN SYSTEMIC TOXICITY (SINGLE EXPOSURE)         | No data available                                                                                                         |
| SPECIFIC TARGET ORGAN SYSTEMIC TOXICITY (REPEATED EXPOSURE)       | No data available                                                                                                         |
| PRODUCTS NUMERICAL MEASURES OF TOXICITY                           |                                                                                                                           |
| NOT DETERMINED                                                    |                                                                                                                           |
| ADDITIONAL INFORMATION                                            | To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated. |

### SECTION 12: ECOLOGICAL INFORMATION

|                                     |                                                                                                                                                  |
|-------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| AQUATIC LIFE:                       | No data available                                                                                                                                |
| PERSISTENCE AND DEGRADABILITY:      | No data available                                                                                                                                |
| BIO ACCUMULATIVE POTENTIAL:         | No data available                                                                                                                                |
| MOBILITY IN SOIL:                   | No data available                                                                                                                                |
| RESULTS OF PBT AND VPVB ASSESSMENT: | No data available as chemical safety assessment not required/not conducted                                                                       |
| OTHER ADVERSE EFFECTS:              | An environmental hazard cannot be excluded in the event of unprofessional handling or disposal. Toxic to aquatic life with long lasting effects. |

# SAFETY DATA SHEET

## G-POLY SC PART B

### SECTION 13: DISPOSAL CONSIDERATIONS

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| WASTE/UNUSED PRODUCTS:  | Burn in a chemical incinerator equipped with an afterburner and scrubber but exert extra care in igniting as this material is highly flammable. This product should not be allowed to enter drains, water courses or the soil Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material. Contact supplier if guidance is required. |
| CONTAMINATED PACKAGING: | Dispose of container and unused contents in accordance with federal, state, and local requirements                                                                                                                                                                                                                                                                                                                                     |

### SECTION 14: TRANSPORT INFORMATION

|            |                     |
|------------|---------------------|
| DOT (US):  | Not Dangerous Goods |
| IMO/IMDG:  | Not Dangerous Goods |
| ICAO/IATA: | Not Dangerous Goods |

### SECTION 15: REGULATORY INFORMATION

|                                  |                                                                                                                                                                                   |
|----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
